SKILLS

- **Languages:** C/C++, Python, JavaScript (ES6+), SQL, HTML5/CSS3
- **Frameworks:** React.js, Node.js, Flask, Tailwind CSS
- **Databases:** MySQL, MongoDB
- **Developer Tools:** Git, GitHub Actions, VS Code
- **Soft Skills:** Adaptability, Time Management, Communication, Organized

PROJECTS

Digital Farmers Market | ***MERN Stack (MongoDB, Express, React, Node.js), JWT*** Oct 2025 – Dec 2025

- Architected a full-stack **MERN** marketplace enabling direct farmer-to-consumer transactions with product listing, shopping cart functionality, and order processing.
- Developed responsive UI using **React** components and **Tailwind CSS** ensuring cross-device compatibility.
- Designed **RESTful** backend services with **Node.js** and **Express**, integrating **MongoDB** for scalable data management.
- Integrated **JWT** authentication with role-based authorization for farmers, consumers, and administrators.
- Optimized user experience through responsive layouts and dynamic UI rendering.

MedQueue | ***PHP, Circular Queue (concept), HTML5, CSS3, JS*** Jun 2025 – Sep 2025

- Created a web-based hospital queue management system to optimize patient flow and reduce waiting time for patients and staff.
- Engineered backend logic in **PHP** using **Circular Queue** concepts for efficient token generation, queue rotation, and handling both online appointments and walk-in registrations.
- Constructed a responsive interface using **HTML5**, **CSS3**, and **JavaScript** for staff queue management and real-time patient token display.
- Enhanced queue management by maintaining a controlled queue size and updating patient tokens dynamically.

Interactive Quiz Management System (IQMS) | ***Flask, SQLAlchemy, Python, HTML/CSS/JS*** Aug 2024 – Sep 2024

- Built a full-stack quiz management application using **Flask** (**Python**) to manage routing and backend logic.
- Established a secure Admin Dashboard supporting **CRUD** operations for quiz questions, quiz configuration, and user account management.
- Utilized **SQLAlchemy ORM** for efficient relational database operations ensuring data persistence and integrity.
- Allowed users to attempt quizzes, submit responses, and view instant scores through a dynamic web interface.

TRAINING

Logic Building, Programming and Data Structures | LPU

- Completed LPU's **Logic Building, Programming and Data Structures** training with **Grade A**, strengthening **problem-solving and algorithmic thinking**.
- Gained hands-on proficiency in implementing core **data structures** (arrays, linked lists, stacks, queues, trees) and writing **optimized, modular code**.

CERTIFICATES

- Social Networks Certification | NPTEL Nov 2025
- Python (Basic) Skill Certification | HackerRank Sep 2025
- SQL (Advanced) Skill Certification | HackerRank Sep 2025
- Data Structures, Algorithms & OOP | LPU Dec 2024

ACHIEVEMENTS

- 5-Star **Python, C++ & SQL** (HackerRank).
- Solved **250+ coding problems** on **HackerRank, LeetCode, and CodeChef**.

EDUCATION

Lovely Professional University Punjab, India
*Bachelor of Technology in Computer Science — **CGPA: 6.96*** *Aug 2023 – Present*

S.S. Public School U.P., India
*Senior Secondary School - Science — **Percentage: 68%*** *Apr 2022 – May 2023*

S.S. Public School U.P., India
*Secondary School — **Percentage: 95%*** *Apr 2020 – Mar 2021*
